Academic Credits and Graduation

In grades nine through twelve, a minimum of two hundred and fifty hours of work must be completed with passing grades, and the following specific requirements must be included (with passing grades). Specific requirements failed must be taken again with a non-failing grade received regardless of whether the total hours completed meet requirements or not. Such classes may be completed through locally supervised correspondence courses (accredited) or re-registration at the high school.

Each student must have completed, with passing grades, the following courses:

40 Hours in English: All high school students will enroll in an English course each year. Speech will be embedded into the English Curriculum

30 Hours in Mathematics: All freshman will enroll in Algebra I. All sophomores and juniors will enroll in one of the following- Geometry, Algebra II, Advanced Math, Consumer Math, or Applied Math.

30 Hours in Social Studies: All freshman will enroll in American History. All sophomores will enroll in World History. All Juniors will enroll in American Government. All Seniors will enroll in Economics.

30 Hours in Science: All freshman will enroll in Physical Science. All sophomores will enroll in Biology. All juniors will enroll in Chemistry, Physics, Environmental Science, Advanced Biology, Applied Biology/Chemistry or Agricultural Science.

40 Hours in Career or Technical Education: All freshman will enroll intro to Agriculture Sciences. All Seniors will enroll in Personal Finance.

30 Hours in Fine Arts: All sophomores will enroll in Leadership.

10 Hours in Physical Education: All freshman will enroll in Physical Education I for one semester and Health for one semester.

40 Hours of electives.
